011613 Table of LWG Proposed 2013 RI Process.pdf

Chip and Kristine:

As we discussed January 9<sup>th</sup> during our Project Management meeting, the LWG is providing the following documents supporting our counterproposal to EPA's proposed RI process:

- Memo summarizing the counterproposal;
- List of proposed governing principles that should be followed while EPA performs its review;
- Table of the LWG's proposed 2013 schedule for the RI;
- Table that summarizes the 2013 schedule (the dates and process are the same, but in order to make this a more user-friendly schedule we deleted much of the duplicating steps for each RI section).

We look forward to discussing this further with you in order to develop a consensus approach and schedule for completing the RI. This information is being shared with the LWG Senior Managers in preparation for their meeting later this month with the EPA Senior Managers.

Thanks,

Jim McKenna
